

SHELBY F-150 SUPER SNAKE

Carroll Shelby had a long history with performance trucks and enjoyed driving them both off-road and on the street. The Shelby F-150 Super Snake was designed to give serious drivers the truck they want to enjoy on the street, along with the collectability of a limited-edition vehicle. Built with 785* horsepower, the Shelby F-150 Super Snake four door trucks are built to honor the memory of an American legend.

Based on the Lariat 4x4, 5.0L SuperCrew, the Shelby F-150 Super Snake comes standard with 400 standard horsepower; and an optional supercharger boosts the V8 engine to 785* horsepower. The heavy-duty suspension and underbody of the Carroll Shelby Centennial Edition truck were built to handle the street with a Shelby by Ridetech Suspension System featuring adjustable FOX coilover shocks and new upper control arms up front while FOX adjustable Shocks, a new sway bar and track bars keep the rear in place.

The interior was completely redesigned to elevate truck ownership experience with style, comfort and utility. The truck has black stitched black leather covers, "race red" lighting, the official Shelby serial number and Shelby floor mats. Each truck has deep tinted windows to keep the interior cool and a ram-air-style hood.

2024 Shelby F-150 Super Snake | Based on a 2024 Lariat 4x4 Supercrew Ford F-150

Performance Features

- Shelby engineered 785HP* supercharger system (optional)
