

SHELBY F-150 SUPER SNAKE

Shelby F-150 Super Snake | *Based on a Lariat 4x4 Supercrew Ford F-150*

The 2026 Shelby F-150 Super Snake takes America's favorite truck and transforms it into a world-class street performance machine. Built on the Ford F-150 Lariat SuperCrew 4x4 platform, the Shelby Super Snake combines legendary Shelby engineering with bold design and exhilarating power.

At its heart is a 5.0L V8 that can be upgraded with a Shelby-engineered supercharger generating more than 810 horsepower. Shelby exclusive suspension tuning, KING adjustable coilovers, rear traction bars, oversized Baer performance brakes, Michelin Pilot Sport tires, and a Shelby-tuned BORLA exhaust create a driving experience unlike any other truck on the road.

Aggressive styling includes a functional dual-intake ram-air hood, custom painted grille, painted ground effects, full-body Shelby stripes, painted tonneau cover, and 22-inch Shelby alloy wheels. Every detail is designed to deliver an unmistakable presence from every angle.

The premium interior features Shelby-designed leather seating, carbon fiber accents, billet racing pedals, serialized Shelby plaques, and Shelby badging. With only 400 planned for production, availability will be extremely limited.

Standard Features

Performance
