

GT350/TA

EARNING OUR STRIPES SINCE 1962

2026 SHELBY GT350/TA

Based on Performance Package, Active Exhaust 2026 Mustang GT Fastback

Introducing the 2026 Shelby GT350/TA, a street-legal, track-focused evolution of our celebrated 2025 GT350R. Built to carve apexes and crush lap times, it pairs a Shelby 830+ hp supercharger with a competition-grade chassis, aero package and cooling to deliver brutal performance with Shelby refinement.

An Aero Package surrounds the car in purpose: a Trans Am-inspired carbon-fiber lower splitter, right/left dive planes, carbon upper/lower grille inserts, fender ducting, rockers with vertical stabilizers, Trans Am-approved adjustable rear spoiler with ghosted Shelby logo, a carbon ducktail and an aggressive carbon rear diffuser with an integrated differential cooler. The exterior features a vented aluminum performance hood with carbon extractor, mesh grilles and signature GT350/TA graphics.

Underneath, the hardware is all business: fully adjustable Trans Am-spec coil-overs and rear dampers with remote reservoirs, Pro-System Alcon endurance brakes, Forgeline racing wheels wrapped in Pirelli P Zero tires, extreme-duty half shafts, a short-throw shifter, full floating sway bars, and a Truetrac limited-slip with remote pump and heat exchanger. Inside, you'll find a carbon fiber instrument panel and door trims, Shelby leather seat covers, serialized dash and engine plate, and a 4130 chromoly TIG-welded 4-point cage.

To learn more about the extremely limited GT350/TA visit us at [Shelby.com](https://www.shelby.com) for more information and to secure a production slot.

Exterior Features

- Aluminum Vented Shelby Performance Hood with Carbon Fiber Air Extraction (Mesh Grilles)
- Painted Shelby Graphic over Carbon Hood applique
- Shelby Performance Front Fascia with Mesh Grille
- GT350/TA Door Graphic
- Shelby Racing Team quarter panel graphic
- Trans AM 60th and GT350/TA Painted Rear Deck Panel
- Carbon Fiber Radiator Engine Closeout
- Carbon Fiber Exterior Mirror Covers

Interior Features

- Carbon Fiber Instrument Panel Trim
- Carbon Fiber Door Panel Trim
- Leather Wrapped Console with Carbon Fiber Console Shifter Surround
- Shelby Performance Leather Seats with Shelby Embroidery
- Carbon Fiber Shifter Handle
- GT350/TA badging
- Shelby Serialized Dash Panel
- Shelby Floor Mats
- Shelby Door Sill Plates
- 4130 Chrome Moly Tig Welded 4-Point Cage

Aero Features

- Carbon Fiber Lower Fascia Splitter – Trans AM inspired
- Carbon Fiber Right- and Left-Hand Dive Planes
- Carbon Fiber Upper and Lower Grille Inserts
- Carbon Fiber Fender Ducting with Mesh Grilles
- Carbon Fiber Rockers with Vertical Stabilizer
- Carbon Fiber Trans Am Approved Rear Wing (Adjustable) with Shelby “ghosted” logo
- Shelby Carbon Fiber Ducktail Spoiler
- Carbon Fiber Decklid Vanity panel with painted Trans AM 60th and GT350/TA logos
- Carbon Fiber Rear Diffuser with Integrated Diff Cooler

Performance Equipment

- Shelby 830+hp Supercharger System with High Efficiency Intercooler
- Shelby Performance Engine Calibration
- Shelby Extreme Engine Cooling Package
- High Flow Quad Outlet Rear Exhaust (Black Tips)
- Extreme Duty Performance Half Shafts
- Short-Throw Shifter
- Hardened Extended Length Wheel Studs
- Front Strut: Trans Am spec Coil Over with Torrington Bearing (Fully Adjustable and Remote Reservoir)
- Rear Shock Absorber: Trans Am Spec (Fully Adjustable and Remote Reservoir)
- Chassis Stiffening: Jacking Rails, Rear Subframe Stiffening, Adjustable Tow Links, Billet Aluminum Vertical Links
- Sway Bar: Front Adjustable End Links, Full Floating Trans Am spec
- Sway Bar: Rear Adjustable End Links, Full Floating Trans Am spec
- Rear Differential Trans Am Spec Limited Split Tru Track with Remote Pump and Heat Exchanger
- Forgeline VX1S Racing Wheels with Gloss Black Finish and Perelli P-Zero Performance Tires
- Pro-System Alcon Endurance Brake Package Trans Am spec
- Easy Access Front Tie Downs
