

# SUPER SNAKE-R

# SUPER SNAKE-R

## Performance

850+ HP supercharger system  
Performance radiator  
Short throw shifter (manual)  
Two-piece slotted brake rotors  
Fully adjustable coil-over suspension system  
Harness bar cross member  
Front and rear sway bars  
Borla cat back exhaust system  
Performance half shafts  
Caster camber plates  
One-piece drive shaft (manual)  
20"x11"(F) 20"x13"(R) forged magnesium wheels  
Shelby spec performance tires  
Hardened wheel studs

## Exterior

Aluminum Super Snake hood assembly  
Carbon fiber hood vents  
Carbon fiber front fenders  
Carbon fiber fender vents  
Front inner fender wells  
Front fascia assembly  
Headlight accents  
Upper and lower grilles  
Carbon fiber lower grille brake ducts  
Carbon fiber outboard grilles  
Carbon fiber fascia wings  
Carbon fiber front splitter  
Aluminum splitter struts  
Rocker assembly with carbon fiber wings  
Carbon fiber rear diffuser with wings

## Metallic rear widebody

Carbon fiber pedestal wing  
Carbon fiber rear ducktail spoiler

## Interior

Puddle lamps (700A chassis only)  
Billet shifter knob  
Door sill plates  
CSM dash badge & engine plate  
Carbon fiber radiator cover and engine cap set  
Embroidered floor mats  
Shelby billet push to start button  
Deep window tint (per state regulations)  
Rear seat delete with harness bar  
Shelby embroidered recovers

## Optional Features

Painted stripes (traditional)  
Race inspired graphics package (vinyl)

3 year / 36,000 mile Limited Warranty  
\* Supercharger for POST-TITLE SALES ONLY\*  
\*HP ratings based on use of 93-octane fuel\*

Introducing the 2026 Shelby Super Snake-R — a bold, track-focused evolution of the iconic Super Snake legacy. Built on the Ford Mustang Dark Horse platform, this limited-edition widebody sports car unleashes over 850 horsepower from a supercharged 5.0L V8 engine, paired with either a Tremec TR-3160 manual 6-speed or a 10-speed automatic transmission. Designed for serious performance enthusiasts, the Super Snake-R features a fully adjustable coil-over suspension, metal spherical bearings, and a rear harness strut bar that delivers unmatched handling precision. Its aggressive stance is enhanced by metallic widebody fenders, massive tires, and a suite of carbon fiber body components including a large front lower splitter, rear pedestal wing, and lower rear diffuser. Shelby American's engineering team focused obsessively on balanced performance, integrating lightweight magnesium alloy wheels and proprietary carbon fiber elements. The result is a car that's not only blisteringly fast but also remarkably poised and customizable for track conditions. Inside, the Shelby-spec interior includes rear seat delete, serialized plaques, and refined finishes. Every detail reflects Shelby's commitment to performance, heritage, and craftsmanship.

This is the third Shelby vehicle built on the new S650 Mustang platform and the most aggressive Super Snake ever offered. Starting at \$224,995 (including the base 600A Darkhorse Mustang), the Super Snake-R is available through authorized Shelby distributors in the U.S. and select international locations. Each car is documented in the official Shelby Registry and includes a 3-year/36,000-mile warranty. Whether you're chasing lap times or making a statement on the street, the 2026 Shelby Super Snake-R is your ticket to track domination and everyday drivability — a true fusion of raw power and refined engineering.
