

SHELBY GT350SE SIGNATURE EDITION

The 1965 Shelby GT350 was the first Mustang-based car that Shelby American and Ford Motor Company created together. To celebrate 55 years of collaboration, Shelby American created a Carroll Shelby Signature Edition version of the 2015-2020 Shelby GT350 and Shelby GT350R.

The first program for the current generation car by Shelby American, the Shelby GT350SE features a more aggressive handling package, sporty interior, stripes, special wheels, performance tires and functional styling elements. The 2020 model cars will wear a unique anniversary badge while 2015-2019 cars will have a standard one. Limited to 100 total units, **each Shelby GT350SE's Shelby serial number will be documented in the official Shelby American Registry.**

The sale of each GT350SE benefits the Carroll Shelby Foundation. It also includes membership in Team Shelby, the club that Carroll Shelby established in 2008.
